Erratum for the **PRINTED** version of the **2016 Annual Report - Hip Knee & Shoulder Arthroplasty**

The online version of the report available on the AOANJRR website has been corrected

SHOULDER REPLACEMENT

ASA Score and BMI in Shoulder Replacement

Page 258

**INCORRECT PRESENTATION OF DATA**

There is a higher proportion of patients undergoing primary partial shoulder replacement that are pre-obese or obese class 1 (62.3%), compared to partial shoulder replacement (55.8%), and revision shoulder replacement (59.8%) (Table S4).

**CORRECTION**

There is a higher proportion of patients undergoing primary total shoulder replacement that are pre-obese or obese class 1 (62.3%), compared to partial shoulder replacement (55.8%), and revision shoulder replacement (59.8%) (Table S4).
